

Querriel Arvy Mendoza

(515) 815-2226 | gasmendoza@gmail.com | [LinkedIn](#) | [GitHub](#) | [Personal Website](#)

EDUCATION

Ph.D. in Computer Science (3.9/4.0) - Kansas State University, Manhattan, KS	Expected: 2027
M.S. in Computer Science (3.8/4.0) - Kansas State University, Manhattan, KS	2023
B.S. in Electronics Engineering (3.75/4.0) - Adamson University, Manila, Philippines	2009

TECHNICAL SKILLS

Tools: Python, SQL, AWS, Azure, Pandas, Numpy, TensorFlow, PyTorch, Scikit-Learn, Matplotlib, SQLAlchemy, Git, GitHub, Snowflake, Azure DevOps, Storage and Backup, Active Directory

Data Science: Applied Statistics, Regression, Random Forest, SVM, Naïve-Bayes, XGBoost, Data Mining, Data Warehousing

Visualization: Power BI, Tableau

Areas: Data Science, Analytics, Machine Learning, Deep Learning, Computer Vision, Natural Language Processing

PROFESSIONAL EXPERIENCE

Machine Learning and Data Science GRA | Kansas State University - Manhattan, KS **August 2021 – Present**

- Research and publications: [Google Scholar](#)
- Developed an insect detection model using computer vision with >85% accuracy using neural networks, published at MDPI: <https://www.mdpi.com/2673-2688/4/1/17>
- Presented research findings at a conference: SPIE Defense + Commercial Sensing Paper 12545-33, published: <http://dx.doi.org/10.1117/12.2672253>
- Managed large datasets, ensuring data integrity, normalization, and providing analytical solutions and problem-solving skills.
- Utilized advanced data analytics techniques to derive meaningful patterns and insights from raw data.

Data Science Intern | Caterpillar Inc. – Chicago, IL **May – August 2023**

- Developed and deployed machine learning models to effectively predict asset and event criticality - resulting in cost savings of \$2 million.
- Utilized Python, SQL, and Power BI to analyze and visualize data, providing actionable insights for decision-making.
- Synthesized complex data analyses into digestible reports and aligned with key stakeholders and senior management.
- Collaborated with a team of Data Scientists, and actively participating in research discussions for knowledge-sharing
- Worked in an agile setting using Azure DevOps and ensuring business requirements are met.

IT Operations Lead | Accenture - Manila, Philippines **October 2015 – October 2016**

- Received Value Creator award - Designed and implemented storage and backup solutions for clients that increased overall system performance by 30%.
- Led 30+ multi-platform professionals and supervised day-to-day IT operations, ensuring high availability, performance, and security levels.
- Oversaw the delivery of IT services according to Service Level of Agreements (SLAs), ensuring KPIs are met.

Infrastructure Engineer - Storage and Backup | Ingram Micro Inc. - Manila, Philippines **July 2014 – October 2015**

- Designed and managed storage and backup configurations for newly built servers.
- Completed Amazon Web Services (AWS) Training.
- Storage administration using EMC, DataCore, and NetApp servers.

Service Delivery Consultant - Storage and Backup | Hewlett-Packard Enterprise - Manila, Philippines **May 2010 – July 2014**

- Received Gold award – Designed and implemented storage and backup solutions that increased overall system productivity by 25%.
- Received High Profile award – performed critical tasks under a new platform that reduced 45% backlogged tickets.
- Facilitated new Backup configurations for newly built servers.
- Improved backup success rate using reports, Problem Management, and Change Management.

PROJECTS AND RESEARCH PUBLICATIONS

CERTIFICATIONS AND RECOGNITION

Data Analysis and Visualization Foundations Specialization , IBM	September 2022
Machine Learning Specialization , DeepLearning.AI	September 2022
DevOps on AWS Specialization , AWS	July 2022
Python for Everybody Specialization , University of Michigan	June 2022
Graduate School Professional Development , Kansas State University	April 2022
Value Creator Award , Accenture Inc.	April 2016
ITIL V3 Foundations Certification Exam – Candidate number: 5600437	February 2016
